

POTX

Cannabis ETF

ETF Category: Thematic Growth -
People & Demographics
As of 06/30/2020

KEY FEATURES

High Growth Potential

POTX enables investors to access a basket of high growth potential companies from across the cannabis industry.

Unconstrained Approach

POTX's composition transcends classic sector, industry, and geographic classifications by tracking an emerging theme.

ETF Efficiency

In a single trade, POTX delivers targeted access to dozens of companies with significant exposure to the cannabis theme.

Cronos Group Inc	7.03%	Organigram Holdings Inc	4.04%

The performance data quoted represents past performance and does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance quoted. High short term performance of the fund is unusual and investors should not expect such performance to be repeated. Returns for periods greater than one year are annualized. Market price returns are based upon the midpoint of the bid/ask spread at the close of the exchange and do not represent the returns you would receive if you traded shares at other times. For performance data current to the most recent month end, please call 1-888-493-8631, or visit www.globalxetfs.com.

SUB-INDUSTRY BREAKDOWN (%)

Pharmaceuticals	84.95%

DEFINITIONS

Solactive Cannabis Index

The Solactive Cannabis Index provide exposure to exchange-listed companies that are active in the cannabis industry. In order to be eligible for inclusion in the Cannabis Index, a company is considered by the Index Provider to be a Cannabis Company if it derives at least 50% of its revenue, operating income, or assets from the cannabis industry. These companies include those involved in the following areas of the cannabis industry: (i) the legal production, growth and distribution of marijuana, as well as extracts, derivative products or synthetic versions thereof; (ii) the legal production, growth and distribution of hemp, as well as extracts, derivative products or synthetic versions thereof; (iii) financial services (insurance offerings, property leasing, financing, capital markets activity and investments) provided to companies involved in the production, growth and distribution of cannabis; (iv) pharmaceutical applications of cannabis; (v) cannabidiol (better known as CBD) and cannabis oil products, edibles, topicals, drinks and other products; and (vi) products that may be used to consume cannabis.

Global X Management Company, LLC serves as an advisor to the Global X Funds. The Funds are distributed by SEI Investments Distribution Co. (SIDCO, 1 Freedom Valley Drive, Oaks, PA, 19456), which is not affiliated with Global X Management Company, LLC or Mirae Asset Global Investments.

Investing involves risk, including the possible loss of principal. The investable universe of companies in which POTX may invest may be limited. The Fund invests in securities of companies engaged in Healthcare and Pharmaceutical sectors. These sectors can be affected by government regulations, expiring patents, rapid product obsolescence, and intense industry competition. International investments may involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principles or from social, economic or political instability in other nations. POTX is non-diversified.

POTX's investments are concentrated in the cannabis industry, and the Fund may be susceptible to loss due to adverse occurrences affecting this industry. The cannabis industry is a very young, fast evolving industry with increased exposure to the risks associated with changes in applicable laws (including increased regulation, other rule changes, and related federal and state enforcement activities), as well as market developments, which may cause businesses to contract or close suddenly and negatively impact the value of securities held by the Fund. Cannabis Companies are subject to various laws and regulations that may differ at the state/local, federal and international level. These laws and regulations may significantly affect a Cannabis Company's ability to secure financing and traditional banking services, impact the market for cannabis business sales and services, and set limitations on cannabis use, production, transportation, export and storage. The possession, use and importation of marijuana remains illegal under U.S. federal law. Federal law criminalizing the use of marijuana remains enforceable notwithstanding state laws that legalize its use for medicinal and recreational purposes. This conflict creates volatility and risk for all Cannabis Companies, and any stepped-up enforcement of marijuana laws by the federal government could adversely affect the value of the Fund's investments. Given the uncertain nature of the regulation of the cannabis industry in the United States, the Fund's investment in certain entities could, under unique circumstances, raise issues under one or more of those laws, and any investigation or prosecution related to those investments could result in expense and losses to the Fund.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the fund. Brokerage commissions will reduce returns. Global X NAVs are calculated using prices as of 4:00 PM Eastern Time. Indices are unmanaged and do not include the effect of fees, expenses or sales charges. One cannot invest directly in an index.

Global X Funds are not sponsored, endorsed, issued, sold or promoted by Solactive AG, nor does Solactive AG make any representations regarding the advisability of investing in the Global X Funds. Neither SIDCO, Global X nor Mirae Asset Global Investments are affiliated with Solactive AG.

Since the Fund's shares typically do not trade in the secondary market until several days after the Fund's inception, for the period from inception to the first day of secondary market trading in Shares, the NAV of the Fund is used to calculate market returns.

Carefully consider the fund's investment objectives, risk factors, charges, and expenses before investing. This and additional information can be found in the fund's full or summary prospectus, which may be obtained by calling 1.888.493.8631, or by visiting globalxetfs.com. Please read the prospectus carefully before investing.
